High Performance Computing Cluster & CAAREN Acknowledgement

Please acknowledge in your publications the role GW IT Research Technology Services (RTS) facilities played in your research.

If you have published a paper or given a presentation that acknowledges GW's High Performance Computing Cluster (Pegasus or Colonial One), please acknowledge the use with the language below.

Please email RTSHelp with the paper title, journal, poster, Digital Object Identifier (DOI) or conference where a presentation was given. These citations help Research Technology Services (RTS) demonstrate the importance of its role in the support of research within the GW community, helping to assure the continued availability of these valuable resources, as well as acquiring funding for further advancement.   We appreciate your conscientiousness in this matter.

For the High Performance Computing Cluster (Pegasus / Colonial One) Samples:

"We gratefully acknowledge the computing resources provided on the High Performance Computing Cluster operated by Research Technology Services at the George Washington University."

"This work was completed in part with resources provided by the High Performance Computing Cluster at The George Washington University, Information Technology, Research Technology Services."

"The authors acknowledge the use of the High Performance Computing Cluster and the advanced support from the Research Technology Services at The George Washington University, to carry out the research presented here."

author = {The George Washington University High Performance Computing
Cluster},
title = {Building a Shared Resource HPC Center Across University
Schools and Institutes: A Case Study}
```

CAAREN Acknowledgement

Please acknowledge in your publications the role GW IT Research Technology Services (RTS) facilities played in your research.

If you have published a paper or given a presentation that acknowledges the Capital Area Advanced Research and Education Network (CAAREN), please acknowledge the use with the language below.

Please email RTSHelp with the paper title, journal, poster, Digital Object Identifier (DOI) or conference where a presentation was given. These citations help Research Technology Services (RTS) demonstrate the importance of its role in the support of research within the GW community, helping to assure the continued availability of these valuable resources.   We appreciate your conscientiousness in this matter.

For the Capital Area Advanced Research and Education Network (CAAREN) Samples:

"We gratefully acknowledge the computing resources provided on the Capital Area Advanced Research and Education Network (CAAREN), operated by Research Technology Services at the George Washington University."

"This work was completed in part with resources provided by the Capital Area Advanced Research and Education Network (CAAREN), at The George Washington University, Information Technology, Research Technology Services."

"The authors acknowledge the use of the Capital Area Advanced Research and Education Network (CAAREN), and the advanced support from the Research Technology Services at The George Washington University, to carry out the research presented here."
